

Software engineering graduate with hands-on experience in .NET Core, Spring, Flutter, React, and Angular. Skilled in RESTful API design, CI/CD, Docker, and database optimization through projects and internships. Eager to launch full-stack development career and contribute to innovative software solutions.

EDUCATION

ESPRIT – Private Higher School of Engineering and Technologies	2022 – 2025
Engineering Degree in Software Engineering	
ISSET Djerba – Higher Institute of Technological Studies	2017 – 2020
Bachelor’s Degree in Electrical Engineering	

TECHNICAL SKILLS

Languages	Java, C#, Dart, JavaScript, TypeScript	DevOps	Docker, Jenkins, Git, Nexus
Frontend	React, Angular, Flutter, Bootstrap	Monitoring	Prometheus, Grafana
Backend	Spring Boot, .NET Core, Express.js	Testing	JUnit, xUnit Jest
Databases	PostgreSQL, SQL Server, Firebase	Tools	Swagger, Postman, ApiDog

EXPERIENCE

Software Engineer Intern, Telnet Holding	Feb – Jul 2025, Tunis
<ul style="list-style-type: none"><li>Developed cross-platform system to test and monitor BLDC motors for drones with real-time data acquisition.</li><li><b>Tech:</b> Flutter, Express.js, SQLite, Python, Serial Communication</li></ul>	
Software Engineer Intern, SHAMASH IT	Jul – Aug 2024, Tunis
<ul style="list-style-type: none"><li>Built platform for managing remote work requests with role-based access control.</li><li><b>Tech:</b> .NET Core, React, Entity Framework, SQL Server</li></ul>	
Summer Intern, SMARTUP	Jul – Aug 2023, Tunis
<ul style="list-style-type: none"><li>Designed scalable backend with Spring Boot and PostgreSQL.</li><li><b>Tech:</b> Spring Boot, Java, PostgreSQL</li></ul>	

PROJECTS

MegStore – E-Commerce Platform [GitHub]

- Responsive e-commerce web app with user, admin, cart modules. Integrated Power BI for analytics.
- **Tech:** .NET Core, React, SQL Server, Tailwind, Power BI

AirManage – Airport Resource Management [GitHub]

- .NET MVC platform to manage flights, schedules, passengers with secure authentication.
- **Tech:** .NET MVC, Entity Framework, MySQL

CoConsult ERP – HR Automation System [GitHub]

- ERP module for recruitment with CV parsing, interview scheduling, and role-based access.
- **Tech:** Spring Boot, Angular, MySQL
